

Develop your travel policy

For purposeful and efficient business trips

How to cut corporate travel emissions

Fly less

Set corporate flying reduction targets

Avoid **frequent flying** (e.g. internal meetings, etc.)

Improve employees' work-life balance

Save costs

Set carbon budgets

Establish emission limits in line with science and your team's needs

Accomplish **goals** and avoid reputational **risks**

Consider low-carbon alternatives

Shift to rail when possible

Use virtual alternatives instead of long-haul flying

Fly less, achieve more

Calculate your emissions

Keep track and monitor your trips

Know where you can **reduce emissions and expenses** the most

Be transparent

Report your business travel emissions

Lead by example and inspire others

Travel
Smart.
